Attention: Karen Jackson

Dear Ms. Jackson:

RE: Shootering Canyon Dam

The above mentioned structure was inspected on March 31, 1981 by Mr. Bob Morgan of my office. At that time, the dam was completed, and his visit will serve as the final inspection from this office.

No dam deficiencies were noted at the time of the inspection; therefore, the project is approved by this office and its intended purpose subject to the following conditions:

1. That "as-constructed" plans in reproduced form be submitted to this office.
2. That the observation well and piezometer data be submitted on a regular basis.
3. That this office be informed when tailings materials are being placed behind the structure.

If you have any questions, please feel free to contact Mr. Bob Morgan of my staff.

Sincerely,

Dee C. Hansen, P. E.
State Engineer
